

PARITOSH TRIPATHI

+91 9759565817 · paritosh.tripathi.work@gmail.com · LinkedIn · GitHub · Portfolio

Summary

3.5+ years Software Engineer specializing in backend architecture and distributed systems. Builds high-throughput, event-driven services with sub-100 ms P99 latency and 99.9%+ uptime. Core stack: Python, Go, Java, AWS (SQS/S3/ECS, DynamoDB), Docker, Kubernetes, REST/gRPC, OpenSearch, MongoDB, CI/CD and observability.

Experience

Software Engineer II

April 2025 – Present

Parspec

Bangalore

- Led the end-to-end redesign of a core inventory microservice, enabling **10K+ distributed operations** to be processed in under **300 seconds** with a **99.6% success rate**, by implementing a **SAGA-based distributed locking system**.
- Delivered scalable REST APIs (Django, FastAPI) backed by DynamoDB, PostgreSQL, and OpenSearch serving **100K+ items/hour**; used Redis caching to sustain **sub-100ms P99 latency**
- Built an internal automation platform cutting setup time **95% (4 hours → 8 minutes)** via **100+ isolated environments** and PR-based deployments, increasing team velocity by 30%
- Owned **20+ production APIs** across multiple microservices handling avg 50K+ daily requests at 99.8% uptime, monitored via **CloudWatch** and custom metrics
- Improved search accuracy by **21%** by implementing **ML-driven image similarity** and vector search using Elasticsearch and OpenSearch
- Established documentation standards and **authored 7+ ADRs** to enhance cross-team knowledge sharing, reducing incident resolution time

Software Engineer I

Aug. 2022 – Dec. 2024

Anakin YC-S21

Bangalore

- Architected a fault-tolerant distributed pipeline processing **150 GB/day** across 4 teams using AWS (SQS, S3, ECS), MongoDB, Docker, and Jenkins CI/CD, achieving **99.95% availability**.
- Cut reprocessing overhead by **15%** and infra costs by **\$3K/month**; built **Looker Studio** dashboards on **BigQuery** reducing **defect resolution time by 29%**.
- Designed event-driven microservice architecture **handling avg 150M+ events/month** at 99.9% uptime with 50K events/min peak through efficient data partitioning and asynchronous processing.
- Engineered **reusable microservice templates** and domain-driven patterns **adopted by 6 teams**, reducing feature development time from 2 days to 3 hours and enabling independent scaling of **12+ services**.
- Resolved **50+ critical production incidents** **Grafana monitoring** deployed via **Kubernetes** and automated alerting via Slack, decreasing escalations by 30%.
- Managed the 10+ **RE** team, supported the **Ride team** with delivery management and cross-functional coordination.

Projects

Mini Perplexity | *React, TypeScript, Python, FastAPI, Cloudflare AI*

Live | GitHub

- Integrated Cloudflare AI LLAMA-70B with React/TypeScript and FastAPI to deliver contextual answers, supporting **500+ users** with <200 ms average response time

MiniHarvey | *React, TypeScript, FastAPI, Cloudflare AI (LLAMA 3.1-70B)*

Live | GitHub

- AI legal research assistant that streams structured memos (Issue, Authorities, Discussion, Conclusion) by aggregating citations from Indian Kanoon, India Code, and curated web sources with parallel fetch and round-robin source balancing

Skills

Languages: Python, Go, Java, SQL, JavaScript, TypeScript

Frameworks: FastAPI, Django, REST, gRPC

Cloud & DevOps: AWS (ECS, SQS, S3, EventBridge, RDS Aurora, CodeBuild), Docker, Kubernetes, Jenkins

Databases: DynamoDB, MySQL, PostgreSQL, MongoDB, OpenSearch, Elasticsearch, Redis, BigQuery

Monitoring: CloudWatch, Grafana, Looker Studio

Reverse Engineering: Frida, JADX, mitmproxy, HTTP Toolkit

AI Tools: Claude Code, Cursor

Concepts: Distributed Systems, Event-Driven Architecture, Microservices, Fault Tolerance, High Availability

Achievements

Engineer of the Quarter (Anakin, Q3 2024): Recognized for backend optimizations increasing data throughput by 35%, resolving 50+ critical production issues, and mentoring junior engineers

Education

Bennett University

B.Tech in Computer Science, Specialization in Data Science · CGPA: 8.0/10
